Re: Final Work Plans and Planning Documents
Winnebago Reclamation Landfill

Dear Mr. Schorle:

Enclosed are the three bound and one unbound copies of the Final RD/RA Work Plan, Health and Safety Plan, and the Groundwater RD Work Plan for the Winnebago Reclamation Landfill (WRL). As requested, we have also included four copies of the revised pages for the Quality Assurance Project Plan. Three copies of these documents have been mailed, under this cover, directly to Mr. Fred Nika.

The subject documents have been prepared based on comments contained in your August 20, August 28, and September 3, 1993 letters and attached memoranda. As requested in your September 3 letter, we have specified that water levels will be measured in all wells around the landfill so that potentiometric maps can be prepared. In regard to IEPA's comment on the "results tables" (Tables 1 through 8 of the Groundwater RD Work Plan), no action is necessary. These results were obtained during the RI and were discussed in detail in the RI report

The Health and Safety Plan has been revised to accommodate recent IEPA comments. IEPA's concern about incorrect permissible exposure limits (PELs) has been addressed. Several pages of the chemical hazard summary information (Appendix A) were inadvertently omitted from the previous draft these pages contained the PELs and have been included in the Final Health and Safety Plan.

FAX 708/691-5133

As discussed during our August 2, 1993 telephone conversation, we request you provide approval of the documents as soon as possible so that we can begin the groundwater sampling at existing wells. Please contact me at (708) 691-5115 should you have any questions.

Sincerely,

WARZYN INC.

Alan J. Schmidt, CPG
Technical Manager

Enclosures: As stated

cc: U.S. Department of Justice; DOJ#90-11-3-712 (no enclosures)
Fred Nika - IEPA (3 bound copies)
John Holmstrom - WRL (1 bound copy)
Thomas Hilbert - WRL (1 bound copy)
Dan Hall - Warzyn (no enclosures)
